3. Press **6** to store the ring type.

Button inquiry

Check what is programmed on your buttons.

1. Press  * 0.
2. Press the button(s) that you want to check.
3. Read the display. Button assignment examples are shown below.

Line xxx (LINENAME)	Intercom xxxx (SETNAME)
Internal autodial Autodial xxxx	External autodial xxxxxxxx
Feature (FEATURENAME)	Handsfree Handsfree

4. Press  when finished.

Button labels

Use the button label strip on the telephone to show what is programmed on the buttons. Spare button label strips are provided with your telephone.

How to label your buttons

1. Remove the plastic lens and button label strip from the telephone.
2. Write the name of each button on the button label strip.
3. Insert the button label strip back on the telephone.
4. Insert plastic lens, matching the tabs on the lens with the notches on the telephone.

Tip

Use the Desktop Assistant application to customize button label strips for your telephone.

Go to www.nortelnetworks.com and download the Desktop Assistant application to your personal computer.

Memory buttons

Memory buttons are buttons with  indicators not assigned as line, intercom or handsfree buttons. Memory buttons store internal and external numbers or features to give you one touch dialing or feature activation.

Programming memory buttons

You can program a memory button with a new number or feature.

External autodial

1. Press  * 1.
2. Press a memory button.
3. Dial the external number.
4. Press  to store the number.
5. Label your new button.

Internal autodial

1. Press  * 2.
2. Press a memory button.
3. Dial the extension number.
4. Label your new button.

Features

1. Press  * 3.
2. Press a memory button.
3. Press  and enter the feature code.
4. Label your new button.

How to erase memory buttons

1. Press  * 1.
2. Press a memory button.
3. Press  to erase the button.

Making and answering calls

Making calls

There are many ways to make a call, depending on your telephone programming and the type of call.

External calls using line buttons

1. Lift the handset.
2. Press a line button.
3. Dial the external telephone number.

External calls using intercom buttons

1. Lift the handset.
2. Press an intercom button and enter a line pool access code.
3. When you hear an external dial tone, dial the external telephone number.

Contact your system administrator for a list of line pool codes.

Internal calls using intercom buttons

1. Lift the handset.
2. Press an intercom button.
3. Dial the extension number.

Contact your system administrator for a list of extension numbers.

Answering calls

When your telephone rings and the display light flashes or when an intercom or line button  indicator flashes:

- Lift the handset.
OR
Press the button with the flashing  indicator before you lift the handset.

How to hold calls

- While on a call, press . The  indicator for the line on hold will flash.
- To retrieve a held call, press the line button with the flashing  indicator.
- Calls are put on hold automatically when you switch from one line to another.

More on making and answering calls

Handsfree calls

Your system administrator must program the handsfree feature on your telephone.

- Press the handsfree button on your telephone to make or answer a call.
- To switch to handsfree when you are on a call, press the handsfree button and replace the handset. Lift the handset to switch back.

When programmed, the handsfree feature is assigned to button 8 on your telephone.

How to mute calls

- While on a call, press  to turn the microphone off. The  light flashes when the microphone is off.
- Press  again to turn the microphone on.
- Use  on handset, handsfree or headset calls.

Headset calls

- Press  to activate the headset mode. When the  light is on, press a line or intercom button to make a call.
- Press  to answer a call when the telephone rings or when an intercom or line button  indicator flashes.
- To switch to your headset when you are on a call, press  and replace the handset. Lift the handset to switch back.

Warning

Nortel Networks does not support the connection of a headset to the T7208 telephone, unless handsfree is enabled within the system programming. If handsfree is not enabled, certain call handling features may not work as intended.
